## GOALS OF ASTC

Does your company agree with ASTC's *Statement on Science* (listed below)?

Yes  No

Science is a human endeavor that uses observations and experimentation to develop explanations of the natural world. Scientific theories are grounded in and compatible with evidence, internally consistent, and demonstrably effective in explaining a wide variety of phenomena. Science is based on hundreds of years of scientific observation and experimentation and many thousands of peer-reviewed publications.

Does your company agree with and demonstrate a strong interest in the goals of ASTC (listed below)?  Yes  No

- To further public understanding of science
- To show the impact of science and technology on society and culture
- To encourage diversity and participation by all peoples in the scientific enterprise, especially women, minorities, and other groups underrepresented in scientific and technological careers
- To serve as a vehicle for cooperative projects of mutual interest to its membership
- To advance the role of science and technology centers in society
- To cooperate with other educational agencies and organizations to further common goals
