Real Time sends an email every time a new message is posted.

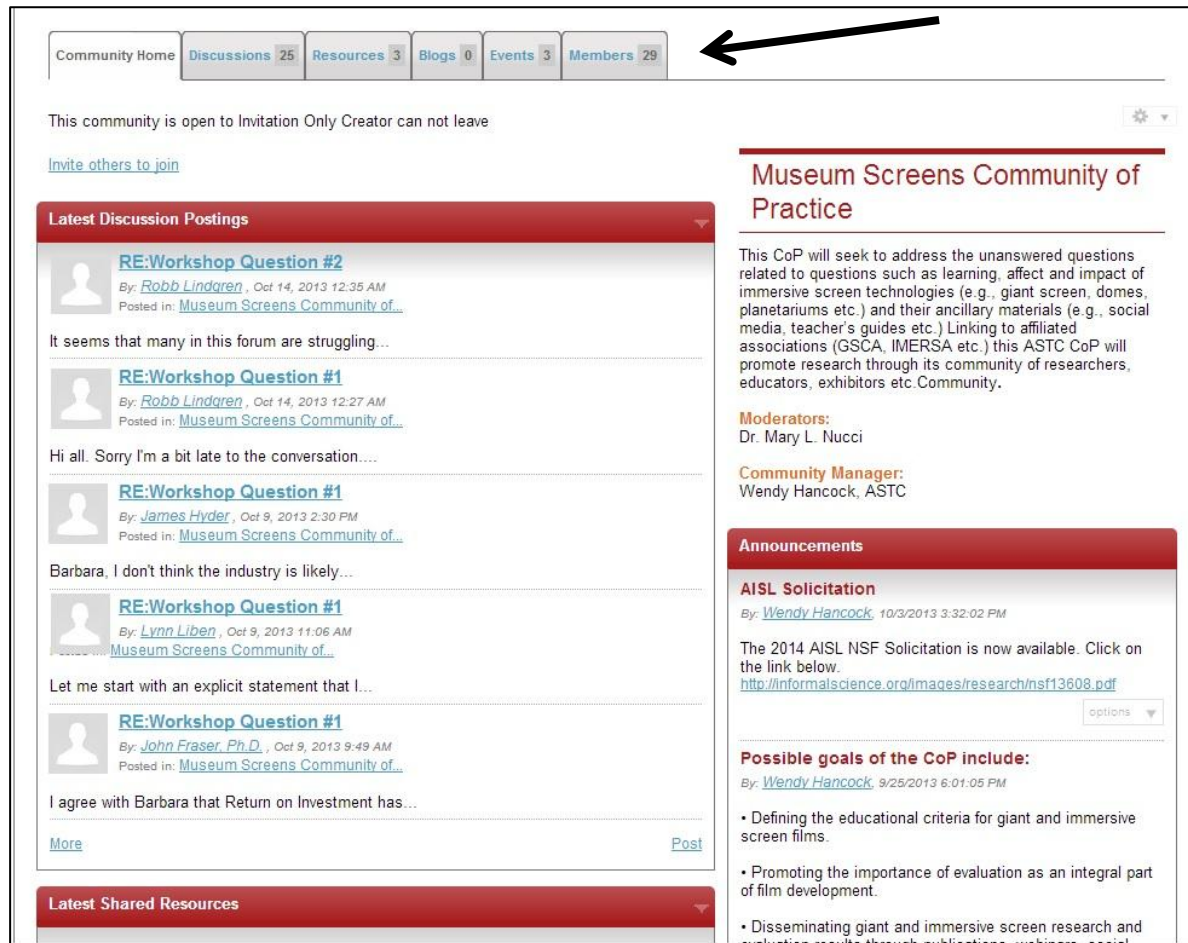

Daily Digest sends one email to you each day, consolidating all of the posts from the previous day.

Legacy sends real-time, plain text versions of the posts. This option also allows you to reply without logging into a web browser, but it does NOT allow you to include attachments with your post.

No Email allows you to be part of the group without having emails sent to you. You can still post and read others' messages by logging into the ASTC Community.

*For Real Time and Daily Digest, you must reply to discussions through the ASTC Community site.
