COMMUNICATIONS

ASTC is committed to providing its members with time-sensitive and up-to-date information on issues of importance to the science center field. So that your institution may benefit from these services, we request permission to send you and/or your staff timely print, faxed, or e-mail communications, such as INFORMER, annual conference announcements, and related marketing opportunities. Please indicate your institution's acceptance by checking the box below.

- As a benefit of membership, I and my staff consent to receive ASTC email communications, and to ASTC storing and processing my contact and membership data in order to maintain communications with me. I understand that I and my staff may unsubscribe from any subscription at any time by using the "unsubscribe" link provided at the bottom of each email or by writing info@astc.org, and that I can view ASTC's privacy policy on its website at any time.

MARKETPLACE

ASTC offers its members the opportunity to be included in a free online products and services list. If your organization would like to be included, please select the following key words to describe your products and services.

| <input type="checkbox"/> Membership Materials/Marketing | <input type="checkbox"/> Web Design |
| <input type="checkbox"/> Motion Simulators | |

GOALS OF ASTC

Does your organization agree with ASTC's Statement on Science (listed below)?

- Yes No

Science is a human endeavor that uses observations and experimentation to develop explanations of the natural world. Scientific theories are grounded in and compatible with evidence, internally consistent, and demonstrably effective in explaining a wide variety of phenomena. Science is based on hundreds of years of scientific observation and experimentation and many thousands of peer-reviewed publications.

Does your organization agree with and demonstrate a strong interest in the goals of ASTC (listed below)? Yes No

- To further public understanding of science
- To show the impact of science and technology on society and culture

- To encourage diversity and participation by all peoples in the scientific enterprise, especially women, minorities, and other groups underrepresented in scientific and technological careers
- To serve as a vehicle for cooperative projects of mutual interest to its membership
- To advance the role of science and technology centers in society
- To cooperate with other educational agencies and organizations to further common goals

Does your organization commit to helping ASTC advance our commitment to diversity, accessibility, inclusion, and equity? Yes No

The Association of Science and Technology Centers (ASTC) values and celebrates the rich diversity that makes up the teams and organizations we serve and the broader communities we engage around the world. At the root of science, technology, and innovation are fundamental values that ASTC embraces: a commitment to seek out and engage a diversity of ideas, perspectives, backgrounds, disciplines, knowledge systems, and approaches; and an evolving practice of accepting, valuing, and celebrating contributions, discoveries, and novel solutions regardless of their source. We commit to bring these values to bear across our work, and we seek teammates, board and committee members, and partners who hold diversity, accessibility, inclusion, and equity as foundational and essential values. If all people are welcomed, respected, and included in our work, if everyone has access to opportunity to pursue their aspirations, and if all people can participate fully and actively in creating and building the future, our association, our members, and our global society will be more equitable, prosperous, just, and resilient.

REQUIRED MATERIALS

To aid the ASTC Membership Department in reviewing your application, if you do not have a website, we require that you submit an informational brochure or other supporting material about your products/services.
