Proposal contact:

By completing this online proposal submission form, you agree to be the primary contact for all proposal and session communications. You will be responsible for sharing all session-related communications from ASTC with session presenters.

This section is auto-filled with the submitter’s contact information from their myASTC account.
The ASTC Conference Program Planning Committee (CPPC), along with the ASTC staff, evaluates all proposals submitted for the conference. The information that you include in your submission will be used by the reviewers to understand your proposed session and what it will offer attendees, help ASTC promote your session, and guide attendees to the sessions most relevant to them.

Before submitting, please review the Call for Proposals and related resources on the ASTC 2021 website.

Section 2
Session Presenter Information:

**To add a presenter, click "Add presenter"** and enter their email address to search ASTC’s member database. If the presenter’s name isn’t found, click "add missing user" and enter the presenter’s accurate contact information (full name, email, organization, and job title).

Please be sure to add yourself if you will be a session leader or presenter.

Session Leader (mandatory field):

Ada Lovelace (Mathematician & Computer Programmer) (Suncentric Science Museum)

Additional Presenters: (you do not need to enter the session leader)

Wendy Hancock (Senior Manager of Programs and Events)  Nina Humes (Conference Manager)

Pro Tip: Cut and Paste the email address of the person you want to add.
If your proposal is NOT accepted as a Concurrent Session, are you open to having your session considered as a Lightning Talk (10-minute virtual presentation that will be combined with other Lightning Talks on related topics/theme) or a Virtual Poster? Select your response from the dropdown.

**Yes, could be either a Lightning Talk or a Virtual Poster**

For logistical reasons, some presenters may be asked to pre-record their session. This would mean only that the presentation itself would be played from a recording, but you would still have the opportunity to engage with participants in real time, including through the session chat and a potential breakout or roundtable discussion following the presentation. Pre-recording is especially useful for those in varied time zones, those who would like to engage in real-time discussion in the chat, and those who wish to incorporate other resources and experiences that are difficult to share via a live video stream.

**If your proposal is accepted, are you open to having your session pre-recorded?** Select your response from the dropdown.

- I would prefer a live session, but pre-recorded is possible.

Consider these options when submitting your proposal.
The conference schedule will allow for some Concurrent Sessions to be followed immediate by an additional 20 minutes for post-session breakout or roundtable discussions.

**Does your session require a post-session breakout discussion?** A limited number are available and are not guaranteed. Select your response from the dropdown.

- Maybe, a breakout would be a good addition, but not required for the session.
